

PRO SERIES
MODULAR CARGO RACK SYSTEM – POLARIS® INDY™ SERIES

PRO SERIES P-121 shown installed on a Polaris® Indy™ 121"

The new *PRO SERIES* P-121 rack system has been engineered exclusively for compatible Polaris® Indy™ series sleds with the 121" track.

It features an over-the-taillight design for increased capacity, "T" slot compatibility for no-drill installation, and an unmatched appearance!

Fabricated from a single sheet of 1/8" aluminum plate, the PRO SERIES Model P-121 rack utilizes a unique design and state-of-the-art CNC metal processing to achieve light weight, high strength, and a superb new look. The modular design provides for the addition of accessory components, allowing the rack to be customized for a particular application.

The new *PRO SERIES* P-121 cargo rack system is specifically engineered for compatible Polaris® Indy™ 121" models!

Cargo deck surface is elevated above the tunnel and heat exchanger, eliminating abrasion and heat damage to accessory bags

Precision CNC fabricated from a single sheet of 1/8" aluminum plate for high strength and light weight

Angled slots along each side provide additional tie down locations for securing cargo

Industrial quality powder coat paint finish features Yellow Chromate pre-treatment for maximum durability and superb appearance

Over-the-taillight design for added cargo capacity and taillight housing protection

Formed crossbars provide for a high strength cargo deck surface and the open design minimizes snow accumulation

Directly compatible with the Polaris® "T" slot tunnel for no-drill installation

Multiple sets of pre-drilled holes along each side and on the cargo deck surface provide for customization and easy mounting of additional accessories

PRO SERIES Model P-121 shown

PRO SERIES P-121 Modular Cargo Rack features:

- **PREMIUM QUALITY CONSTRUCTION.** CNC fabricated from 1/8" aluminum plate for high strength, light weight, and premium quality.
- **INDUSTRIAL-GRADE POWDER COAT PAINT FINISH.** Features a Yellow Chromate pre-treatment along with a textured black powder coat paint finish for long-lasting durability and superb appearance.
- **"T" SLOT COMPATIBLE.** The **PRO SERIES** Model P-121 cargo rack is designed to be fully compatible with the Polaris® "T" slot mounting system for easy, no-drill installation.
- **ELEVATED CARGO DECK.** The unique design of the **PRO SERIES** P-121 rack supports cargo bags above the heat exchanger and tunnel, protecting them from abrasion and heat. The open design of the cargo deck also allows snow to pass through, helping to keep cargo bags dry.
- **OVER-THE-TAILLIGHT DESIGN.** The design of the **PRO SERIES** P-121 rack extends the top surface over and above the taillight housing. This provides for additional capacity and allows longer cargo items to extend beyond the rear of the sled without damaging the taillight housing.
- **CUSTOM FIT.** The **PRO SERIES** P-121 rack has been specifically engineered for application on compatible Polaris® Indy™ 121" models. The **PRO SERIES** rack follows the design features of the stock machine to provide for an integrated fit and appearance.
- **MODULAR DESIGN.** The **PRO SERIES** P-121 rack features multiple sets of pre-drilled holes along each side and on the top surface. These can be used to mount additional accessories, allowing for future expansion and customization.
- **1 YEAR LIMITED WARRANTY.**
