

**PRO SERIES**  
**MODULAR CARGO RACK SYSTEM – POLARIS® (XL SERIES)**

*PRO SERIES P-155-XL shown installed on 2013 PRO RMK™ 155*

**The new *PRO SERIES* P-155-XL and P-144-XL rack systems are engineered exclusively for compatible Polaris® PRO RMK™ 155 and Polaris® Switchback™ 144 models.**

**Both racks feature an over-the-taillight design for increased capacity, no-drill installation, and an unmatched appearance!**

*Fabricated from a single sheet of 1/8" aluminum plate, the PRO SERIES racks utilize a unique design and state-of-the-art CNC metal processing to achieve light weight, high strength, and a superb new look. The modular design provides for the addition of accessory components, allowing the rack to be customized for a particular application.*

**The new *PRO SERIES* cargo rack systems are specifically engineered for compatible PRO RMK™ 155 and Switchback™ 144 models!**

Cargo deck surface is elevated above the tunnel and heat exchanger, eliminating abrasion and heat damage to accessory bags

Precision CNC fabricated from a single sheet of 1/8" aluminum plate for high strength and light weight

Directly compatible with the stock "T" slot mounting system for easy, no-drill installation

Industrial quality powder coat paint finish features Yellow Chromate pre-treatment for maximum durability and superb appearance

**PRO SERIES** Model P-155-XL shown

Over-the-taillight design for added cargo capacity and taillight housing protection

Formed crossbars provide for a high strength cargo deck surface and the open design minimizes snow accumulation

Angled slots along each side provide additional tie down locations for securing cargo

Multiple sets of pre-drilled holes along each side and on the cargo deck surface provide for customization and easy mounting of additional accessories

**PRO SERIES modular cargo rack systems feature:**

- **PREMIUM QUALITY CONSTRUCTION.** CNC fabricated from 1/8" aluminum plate for high strength, light weight, and premium quality.
- **INDUSTRIAL-GRADE POWDER COAT PAINT FINISH.** Features a Yellow Chromate pre-treatment along with a textured black powder coat paint finish for long-lasting durability and superb appearance.
- **"T" SLOT COMPATIBLE.** The **PRO SERIES** cargo rack is designed to be fully compatible with the Polaris® "T" slot mounting system for fast and easy no-drill installation.
- **ELEVATED CARGO DECK.** The unique design of the **PRO SERIES** racks support cargo bags above the heat exchanger and tunnel, protecting them from abrasion and heat. The open design of the cargo deck also allows snow to pass through, helping to keep cargo bags dry.
- **OVER-THE-TAILLIGHT DESIGN.** The design of the P-144-XL and P-155-XL **PRO SERIES** racks extends the top surface over and above the taillight housing. This provides for additional capacity and allows longer cargo items to extend beyond the rear of the sled without damaging the taillight housing.
- **CUSTOM FIT.** **PRO SERIES** racks are available for application on compatible Pro RMK™ 155 and Switchback™ 144 models. The **PRO SERIES** rack follows the design features of the stock machine to provide for an integrated fit and appearance.
- **MODULAR DESIGN.** The **PRO SERIES** racks feature multiple sets of pre-drilled holes along each side and the cargo deck surface. These can be used to mount additional accessories, allowing for future expansion and customization.
- **1 YEAR LIMITED WARRANTY.**

**MADE IN U.S.A.**
