

# STICKER GUARD™

**STICKER GUARD™ is the original product designed to protect your vehicle from the application of temporary permit decals.**

**Engineered with a proprietary adhesive formula, the STICKER GUARD™ attaches to exterior vehicle surfaces in temperatures as low as to -40° F, yet removes without leaving residue.**

Available in packages of 10, the **STICKER GUARD™** is ultimate solution to protect your vehicle from the application of temporary permit decals. Simply place the **STICKER GUARD™** onto the vehicle in the desired location, and place temporary permit decals onto the surface. When the temporary permit decal is no longer required, the **STICKER GUARD™** can be removed from the surface without leaving adhesive residue behind.

**The STICKER GUARD™ can be used on snowmobiles, atv's, boats, cars, trucks - any vehicle that requires the use of temporary permit decals!**

**STICKER GUARD™** is designed using a proprietary adhesive formula, providing for application at temperatures as low as -40° F

**STICKER GUARD™** features a large surface area, providing for easy placement of decals of varying sizes and shapes

**STICKER GUARD™** may be applied onto windshields, hoods, or any smooth surface. It features a unique polymer base layer that easily conforms to uneven surfaces, providing for multiple placement options

**STICKER GUARD™** can be easily removed from the mounting surface without leaving adhesive residue behind
