

PRO SERIES
MODULAR CARGO RACK SYSTEM
YAMAHA® SRVIPER™/SIDEWINDER™ SERIES APPLICATIONS

Introducing the new *PRO SERIES* Modular Cargo Rack Systems from Up North Technologies.

Engineered exclusively for Yamaha® applications, the new *PRO SERIES* cargo rack models provide a perfectly integrated design that offers superb functionality and unmatched appearance!

*Fabricated from a single sheet of 1/8" aluminum plate, all **PRO SERIES** racks utilize a unique design and state-of-the-art CNC metal processing to achieve light weight, high strength, and a superb new look. The modular design of the rack provides for the addition of bolt-on accessory components, allowing the rack to be customized for a particular application.*

The new *PRO SERIES* Modular Cargo Rack Systems are engineered for a perfect fit on compatible Yamaha® models!

Cargo deck surface is elevated above the tunnel and heat exchanger, eliminating abrasion and heat damage to accessory bags

Precision CNC fabricated from a single sheet of 1/8" aluminum plate for high strength and light weight

Contoured design provides for perfect integration with the fuel tank and taillight housing

Industrial-grade powder coat paint finish features Yellow Chromate pre-treatment for maximum durability and superb appearance

Formed crossbars provide for a high strength cargo deck surface and the open design minimizes snow accumulation

Engineered specifically for Yamaha® models to provide a factory quality fit and appearance

Angled slots along each side provide additional tie down locations for securing cargo

Multiple sets of pre-formed holes along each side and on the cargo deck surface provide for customization and easy mounting of additional accessories

PRO SERIES modular cargo rack systems feature:

- **PREMIUM QUALITY CONSTRUCTION.** CNC fabricated from 1/8" aluminum plate for high strength, light weight, and premium quality.
- **INDUSTRIAL-GRADE POWDER COAT PAINT FINISH.** Features a Yellow Chromate pre-treatment along with a textured black powder coat paint finish for long-lasting durability and superb appearance.
- **ELEVATED CARGO DECK.** The unique design of the **PRO SERIES** racks support cargo bags above the heat exchanger and tunnel, protecting them from abrasion and heat. The open design of the cargo deck also allows snow to pass through, helping to keep cargo bags dry.
- **RIGID DESIGN.** The design of the **PRO SERIES** product line provides for high strength while minimizing weight. Installation of the YV-129, YV-137-141, or AC-141 will add significant strength to the tunnel structure of all compatible Yamaha® SRViper™ and Sidewinder™ snowmobile models!
- **CUSTOM FIT.** **PRO SERIES** models YV-129, YV137-141, and AC-141 have been specifically engineered for a perfectly integrated fit on the Yamaha® SRViper™ and Sidewinder™ series snowmobiles. They are designed to contour around the fuel tank and over the taillight housing, matching the stock lines and angles for a factory-quality fit and appearance. This feature also provides for maximum storage capability by utilizing all available exposed tunnel space.
- **MODULAR DESIGN.** Each **PRO SERIES** rack model features multiple sets of pre-formed holes along each side and on the cargo deck surface. These mounting holes can be used to install additional bolt-on accessory components, allowing for future expansion and customization.
- **1 YEAR LIMITED WARRANTY.**

MADE IN U.S.A.

**PRO SERIES MODULAR CARGO RACK SYSTEM
YAMAHA® SRVIPER™ SERIES APPLICATIONS**

YAMAHA® SRVIPER™ SNOWMOBILE MODEL	YEAR	PRO SERIES MODEL
All SRViper™ w/129" track	2014 – current	YV-129
All SRViper/Sidewinder w/137" or 141" track	2014 – current	YV-137-141
SRViper/Sidewinder w/153" track	2015 - current	AC-141

NOTE: Certain Yamaha® snowmobile models may require the removal of the tunnel-mounted stock storage bag to provide for compatibility with **PRO SERIES** cargo rack systems.
