

PRO SERIES CROSS RAIL/SIDE RAIL BRACKET KITS

SIDE RAIL BRACKET KIT SRB-100

Introducing the new Cross Rail and Side Rail Bracket Kits for the PRO SERIES Modular Cargo Rack Systems.

Engineered exclusively for the PRO SERIES Modular Cargo Rack product line, these bolt-on bracket kits provide the ability to add adjustable side rail and front/rear support exactly where it's needed!

Fabricated from 1/8" aluminum plate, these lightweight brackets are CNC laser cut and formed for the highest quality. Each bracket is designed to quickly and easily attach to the pre-formed mounting holes in every PRO SERIES rack system as a bolt-on component. The unique design of each bracket provides for multiple placement options, allowing the PRO SERIES rack to be customized for specific cargo securing requirements.

The Cross Rail and Side Rail bracket kits are engineered for a perfect fit on every PRO SERIES rack model!

CNC laser cut and formed from 1/8" aluminum plate for lightweight, high strength, and premium quality

Angled slots along the side of each bracket minimize weight, add securing options, and enhance appearance

Multi-function design provides for use as cross rail or side rail bracket (CRB-Series only)

Slotted mounting holes on all models allow for adjustable bracket positioning, and dual sets of slots on CRB-Series models provide for use as cross rail or side rail support

Formed top rails on all brackets provide for a high level of strength and rigidity

Engineered for easy, bolt-on installation on every PRO SERIES rack

3" height provides excellent support for accessory bags and gear

Industrial-grade powder coat paint finish features Yellow Chromate pre-treatment for maximum durability and superb appearance

CROSS RAIL BRACKET KIT CRB-SD

All Cross Rail and Side Rail bracket kits feature:

- **PREMIUM QUALITY CONSTRUCTION.** CNC fabricated from 1/8" aluminum plate for high strength, light weight, and premium quality.
- **INDUSTRIAL-GRADE POWDER COAT PAINT FINISH.** Features a Yellow Chromate pre-treatment along with a textured black powder coat paint finish for long-lasting durability and superb appearance.
- **SLOTTED MOUNTING HOLES.** Slotted mounting holes on all models provide the ability to optimize the position of each bracket based on a particular cargo securing requirement.
- **DUAL MOUNTING SLOT SETS ON CRB-SERIES MODELS.** Dual sets of mounting holes on all CRB-Series bracket models allow for either cross rail (front/rear) support function, or side rail support function.
- **3" HEIGHT.** All Cross Rail and Side Rail brackets are designed with a 3" height for excellent support capability while maintaining a minimal overall profile.
- **UNIVERSAL FIT FOR SRB-100 MODEL.** The SRB-100 Model offers a universal fit and function as a side rail bracket on every **PRO SERIES** rack. On applicable rack models, the SRB-100 brackets can also be placed in series on the same side of the rack for additional rail length and support capability.
- **BRAND-SPECIFIC APPLICATIONS FOR CRB MODELS.** The CRB-Series bracket models feature brand-specific design, perfectly integrating with the overall dimensions of their respective **PRO SERIES** rack family.
- **MODULAR DESIGN.** The Cross Rail and Side Rail bracket kits are designed as modular, bolt-on components that easily integrate within the **PRO SERIES** rack platforms.
- **1 YEAR LIMITED WARRANTY.**

MADE IN U.S.A.

PRO SERIES MODULAR CARGO RACK SYSTEM

CROSS RAIL/SIDE RAIL BRACKET KIT APPLICATIONS

BRACKET KIT FUNCTION	PRO SERIES MODEL	COMPATIBLE PRO SERIES RACK MODELS
Cross Rail/Side Rail	CRB-SD	"SD", "XS", and "XM" model prefix PRO SERIES racks (Ski-Doo® REV™ XP/XS/XM applications)
Cross Rail/Side Rail	CRB-P	"P" model prefix PRO SERIES racks (Polaris® applications)
Cross Rail/Side Rail	CRB-AC-YV	"AC", "YV", and "G4" model prefix PRO SERIES racks (Arctic Cat®, Yamaha®, and Ski-Doo® G4 applications)
Side Rail	SRB-100	Universal application on all PRO SERIES rack models
