

**X3 MOUNTAIN
TRIPLE-POSITION LINQ™ ADAPTER SYSTEM
(SKI-DOO® REV™ G4/G5 SUMMIT™/FREERIDE™ APPLICATIONS)**

*X3 MOUNTAIN TRIPLE-POSITION LINQ™ ADAPTER SYSTEM
INSTALLED ON SKI-DOO® REV™ G4 SUMMIT™ SP 146*

**Introducing the new
X3 MOUNTAIN
Triple-Position
LINQ™ Adapter
System.**

Add the functionality and convenience of 3-position LINQ™ accessory compatibility to Ski-Doo® REV™ G4/G5 Summit™ and Freeride™ sleds!

Fabricated from CNC machined aluminum extrusions, the new X3 MOUNTAIN Triple-Position LINQ™ Adapter System has been specifically designed to provide Ski-Doo® REV™ G4/G5 Summit™ and Freeride™ models with an additional – and retractable – LINQ™ attachment location! The X3 MOUNTAIN creates this capability by providing two independent LINQ™ attachment plates coupled to a stainless steel parallel rail system, allowing them to be quickly moved in or out as required to optimize rider mobility.

Add three-position LINQ™ accessory compatibility to the REV™ G4/G5 Summit™ and Freeride™ models with the new X3 MOUNTAIN Triple-Position LINQ™ Adapter System!

Fabricated from CNC machined aluminum extrusions, the X3 MOUNTAIN is specifically designed to add triple LINQ™ accessory capability to G4/G5 Summit™ and Freeride™ models

The X3 MOUNTAIN features retractable LINQ™ attachment plates, providing for optimal rider mobility

LINQ™ receptacles install easily into pre-drilled mounting holes on the independent attachment plates of the X3 MOUNTAIN

The X3 MOUNTAIN is designed to interface directly with the stock LINQ™ mounting holes in the tunnel for easy, no-drill installation

All aluminum components feature a black hard-coat finish for a highly durable, superb appearance

The forward attachment position is compatible with all current LINQ™ fuel caddy units

The X3 MOUNTAIN Triple-Position LINQ™ Adapter System features:

- **THREE-POSITION LINQ™ ACCESSORY COMPATIBILITY.** The X3 MOUNTAIN creates a third LINQ™ accessory attachment location by providing two independent – and retractable – attachment plates ahead of the stock positions. The third LINQ™ attachment location is fully compatible with all current LINQ™ fuel caddy units.
- **EASY INSTALLATION.** The X3 MOUNTAIN system interfaces directly with the stock LINQ™ mounting holes on the tunnel of every Ski-Doo® REV™ G4 Summit™ and Freeride™ model for easy, no-drill installation. All fasteners required for installation of the X3 MOUNTAIN system onto the tunnel are included.
- **PREMIUM QUALITY CONSTRUCTION.** The X3 MOUNTAIN features thick-wall, CNC machined custom aluminum extrusions and stainless steel shafts for high strength, precise fit, and premium quality.
- **INDUSTRIAL-QUALITY BLACK HARD-COAT FINISH.** All of the aluminum components used in the assembly of the X3 MOUNTAIN feature an industrial-quality black hard-coat finish that provides for a highly-durable, exceptional appearance.

MADE IN U.S.A.
