

**PRO SERIES CR137
COMBO RACK
(POLARIS® MATRYX™ 136"/137" APPLICATIONS)**

**Introducing the
new PRO SERIES
CR137 COMBO
RACK for Polaris®
Matryx™
136"/137"
models!**

PRO SERIES CR137 COMBO RACK CONFIGURED FOR LINQ™
COMPATIBILITY INSTALLED ONTO THE TUNNEL OF A
POLARIS® MATRYX™ XCR™ 136"

Add dual-position LINQ™ system compatibility and cargo-carrying versatility to Polaris® Matryx™ 136"/137" models with the new **PRO SERIES CR137 COMBO RACK**! Fabricated from a single sheet of 3/16" aluminum, it is CNC laser-cut and formed for high strength and a precise fit. It installs easily onto the tunnel of compatible Polaris® models utilizing the "T" slots. The **CR137 COMBO RACK** can also be configured to function as a dedicated base platform for carrying larger and/or longer cargo items.

The new CR137 COMBO RACK provides LINQ™ system compatibility and generic cargo rack versatility – all in one product!

The **CR137 COMBO RACK** is CNC laser-cut and formed from a single sheet of 3/16" aluminum for high strength and light weight. It is specifically designed to provide a precise fit on Polaris® Matryx™ 136"/137" snowmobile models

The **CR137 COMBO RACK** directly interfaces with the "T" slots in the tunnel of compatible Polaris® Matryx™ models for easy installation

Angled slots on each side of the **CR137 COMBO RACK** provide convenient tie-points for securing cargo items

The top surface of the **CR137 COMBO RACK** is above the taillight, providing improved heat exchanger efficiency while keeping cargo items drier

The **CR137 COMBO RACK** provides LINQ™ functionality and features multiple rear attachment locations for compatibility with a wider variety of LINQ™ accessory products

The **CR137 COMBO RACK** features a finely-textured, black powder coat paint finish

UP NORTH
TECHNOLOGIES, INC.

The PRO SERIES CR137 COMBO RACK features:

- **PREMIUM QUALITY CONSTRUCTION.** The **PRO SERIES CR137 COMBO RACK** is CNC laser-cut and formed from a single sheet of 3/16" aluminum plate for high strength, light weight, and precise fit.
- **EASY INSTALLATION.** The **PRO SERIES CR137 COMBO RACK** interfaces directly with the "T" slots in the tunnel of compatible Polaris® Matryx™ 136"/137" snowmobile models for easy, no-drill installation.
- **LINQ™ SYSTEM COMPATIBILITY.** The **PRO SERIES CR137 COMBO RACK** provides dual-position LINQ™ system functionality. The rear portion of the rack provides two sets of LINQ™ attachment holes, providing the ability to optimize the center-to-center distance between the two particular LINQ™ accessory items as needed based on the application.
- **VERSATILE FUNCTIONALITY.** The **PRO SERIES CR137 COMBO RACK** can function as a generic base platform, providing the ability to carry larger and/or longer cargo items such as rigid boxes, bags, tools, ice fishing gear, etc. The 3" rack height extends above the height of the taillight housing, which allows for compatibility with longer cargo items that may extend beyond the rear bumper. Angled slots along each side of the rack act as tie-points for ratchet straps, bungee straps, etc. that may be used to secure cargo items.
- **SUPERB APPEARANCE.** The **PRO SERIES CR137 COMBO RACK** features a finely-textured black powder coat finish that provides for a highly-durable, exceptional appearance.

MADE IN U.S.A.
